---

**Candidate Platform & Positions**

Please detail why you would like to serve on the NFPGA Board of Directors and what skill set you will bring to the board.

**My mission is to immerse myself in the PGA at an organizational level that would afford me the opportunity to promote transparency, grow the organization via a movement of youthful zest, and incorporate technology as a second language.**

**As a dual member of the PGA and LPGA. I intend to introduce and create more opportunities for the two memberships to support efforts to keep golf at the forefront. I currently hold the office of Secretary for the LPGA Southeast Section. In that capacity, I have gained valuable experience working in a collegial, remote based environment to promote the national agenda and execute the goals of the organization.**

**I have a Masters degree in Business Administration (MBA) and a B.S. degree in marketing. The two degrees provide the knowledge background necessary to effectively perform the duties of the Secretary of the organization from a theoretical and experiential perspective. I have worked as social media and marketing coordinator, program director, and president/founder of a nonprofit organization.**

**I am excited at the prospect of turning theory into practice and recapturing the youthful movement of the organization. I support diversity and embrace the opportunity to communicate that position through word and action.**

**I want to be the North Florida Section Secretary. I am the best candidate.**
